

# MONUMENT

## THE FOUNDATION OF EXCELLENCE

A research first approach of perfecting turfgrass performance.

### Variety information

#### Description:

Monument Tall Fescue is a cool-season turfgrass variety recognized for its impressive seed yield and early maturity. It also exhibits resistance to both brown patch and stem rust, providing it with an advantage when it comes to disease resistant tall fescues. Monument is recognized as MD/VA listed.

#### Applications:

Monument is adapted for lawns, golf course roughs, cemeteries, parks, sod production, sports fields, roadsides and slope stabilization. Its disease resistance to brown patch and stem rust make Monument especially well-suited for residential or commercial lawns that have high humidity and hot temperatures.

#### Geographical Adaption:

Monument performs well in the Transition Zone and temperate climates. It is adapted to a wide range of soil types and pH. Recommended seeding rate is 5-8 lb/1000 ft<sup>2</sup> (275-390 kg/ha). Fertilize at 3-5 lbs. N/1000 ft<sup>2</sup>/yr (150-275 kg/ha); mow at 1.5-3.0" (4-8 cm); irrigate deeply and infrequently.

### PRODUCT FEATURES

Good Seed Yield	● ● ● ● ●
Stem Rust Resistant	● ● ● ● ●
Early Maturity	● ● ● ● ●
Brown Patch Resistant	● ● ● ● ●

Seeding Rate 5-8 lbs /1000sq. ft (245-390 kg/ha)
