

## THE FOUNDATION OF EXCELLENCE

A research first approach of perfecting turfgrass performance.

### Variety information

#### Description:

Harvest Moon is an elite and new Kentucky Bluegrass release from the PST breeding program. Harvest Moon consistently exhibits exceptional summer performance among many other strong traits. These other traits include; tolerance to shade and resistance to dollar spot, rust, and powdery mildew. All of these traits make Harvest Moon a strong performer across the board.

#### Applications:

Harvest Moon has excellent shade tolerance and summer performance. Its shade tolerance and summer performance would be great for home lawns, sports stadiums or other shaded areas. Harvest Moon will perform under disease pressure and show resistance to the following: powdery mildew, dollar spot, and rust.

#### Geographical Adaption:

Harvest Moon is adapted to well-drained soils with a pH of 5.5-7.5. Harvest Moon performs well in the northern climates down through the Transition Zone of the United States. In addition to the United States, Harvest Moon will perform well in Europe and China. Fertilize at 3-4 lb N/1000 sq. ft/year. Mowing height 0.5-2.5 ". Irrigate deeply and infrequently in absence of rainfall.

### PRODUCT FEATURES

Shade Tolerance	● ● ● ● ●
Summer Performance	● ● ● ● ●
Dollar Spot Resistant	● ● ● ● ●
Rust Resistant	● ● ● ● ●
Seeding Rate	2-3 lbs /1000sq. ft (125 kg/ha)
